As one of the earliest members of Garin Ma'alei Adumim, my wife and I have been asked by the Secretariat of the garin to settle in Ma'alei Adumim with its first group of settlers in order to serve as physician there, since we were informed that Dr. Inbar will not be able to join the group at this time, (due to unforeseen obligations)

Unfortunately, we have just been called urgently to the United States to arrange medical care for my wife's critically ill mother, and will leave in 2 days. We intend to return at the end of December, at which time we wish to settle in the room reserved for us in Ma'alei Adumim.

Please note that I am a Specialist in Family Practice of long experience, also trained in Gynecology and Obstetrics and on the staff of Misgav Ladah Hospital, and that I conceive my function to supply good family-type medical care to this new community and to its neighbors!

Yours truly,
